DevConnect Membership for Enterprise

Extract more value from your investment in Avaya technology

As an Avaya customer, you’ve already made an investment in the future of intelligent communications solutions for your business. We’d like to help you get more out of that investment, by providing you with the tools and resources to take your business to the next level.

Whether you are simply exploring how Avaya technology can create opportunities for your enterprise, or seeking additional technical know-how and information to aid in your current development efforts, a free DevConnect membership offers access to:

- Downloadable software development kits (SDKs) and client-side libraries aid in application development and integration.
- Step-by-step tutorials, in-depth Flash-based training courses, and recorded webinars build skills within your technical community.
- Technical Frequently Asked Questions (FAQs) and community-supported forums assist in knowledge sharing.
- Sample Applications jump start your application development efforts by demonstrating how to use key APIs.
- Developer conferences, podcasts, newsletters and other developer communications provide ongoing technical awareness.
- Simulators* and remote labs aid in prototyping and proof-of-concept implementations with minimal up-front investments.
- Evaluation kits and developer editions for emerging Avaya products, allow you to explore new solutions that can give you a competitive advantage or help you deliver superior customer service.
- Interoperability Notes and DevConnect Member Application Notes created by our Solution and Interoperability Test Lab assist in deploying solutions.
- Opportunities to participate in technical beta programs give you a leg up on next generation application development activities.
- And much more...

Enhanced Technical Support options for Enterprise Customers

For additional engineer-level technical support on the use of product APIs and SDKs, DevConnect offers an enhanced membership option just for Enterprise customers. By upgrading your membership, all your application developers can have access to enhanced technical support resources via the DevConnect web portal.

Register today for your free DevConnect membership at www.avaya.com/devconnect

DevConnect Membership is open to all Avaya customers, FREE of charge

The Avaya DevConnect program provides a wide range of developer oriented resources, including access to APIs and SDKs, developer tools, technical support options and training resources.

Enhanced membership options include increased levels of technical developer support.
### A Sample Listing of Available DevConnect Resources:

**SDK & API Downloads and Documentation**
- Information on APIs and downloads of SDKs for over 30 Avaya products, including:
  - Avaya Agile Communication Environment™ (Avaya ACE™) Web services and Foundation Toolkit
