Percipia Precision Voicemail with Avaya IP Office Server Edition using SIP Trunk and SIP Endpoint – Issue 1.0

NOTICE

The Percipia Precision Voicemail system release 5.1 was compliance tested to interoperate with Avaya IP Office Server Edition release 10.1. In the compliance testing, Percipia Precision Voicemail provided voicemail services, option for housekeeping to update room status and wakeup call feature to Avaya IP Office users using SIP Trunks and a SIP endpoint.

At the request of the vendor, the full details of the Application Notes, including the scope of testing as well as any observations, are not being made public. Should a user have a need for the complete Application Notes, please contact the vendor directly, or request further information from Avaya DevConnect at devconnect@avaya.com.

Testing was conducted via the DevConnect Program at the Avaya Solution and Interoperability Test Lab.
