# **Percipia Informant Call Accounting System with Avaya IP Office Server Edition – Issue 1.0**

## **NOTICE**

The Percipia Informant release 10.0 (SP 10.0.5740) Call Accounting System was compliance tested to interoperate with Avaya IP Office Server Edition release 10.1, using Station Message Detail Recording (SMDR) link. In the compliance testing, Informant processed the call records and generated customized detailed reports.

At the request of the vendor, the full details of the Application Notes, including the scope of testing as well as any observations, are not being made public. Should a user have a need for the complete Application Notes, please contact the vendor directly, or request further information from Avaya DevConnect at [devconnect@avaya.com](mailto:devconnect@avaya.com).

Testing was conducted via the DevConnect Program at the Avaya Solution and Interoperability Test Lab.
